

# ThoroPACE™ CHANGE OF PACE REPORT

Racing Flow™ has examined each race run in North American during the past eight years to identify factors associated with above average returns on investment.

Each day, our software reviews the lifetime past performances of each North American starter to identify the approximately 1% meeting our "overlay" criteria.

The runners listed below exhibit at least one profitable criteria. Those listed multiple times meet two or more criteria. The number of \$ in the bet column is used to inform bet size.

date=12APR2026										
TRK	race	NUM	HORSE	angle	bet	SURF	dist	pace	FS	
AQU	3	6	Thorsness	SPD RUNNER GETS SOFTER PACE	\$	D	8.0	-9.7	6
